- **Back-end:** Node.js, Express, Typescript, Mongoose, Sequelize
- **Database:** MongoDB, Mysql, Postgres
- **Other:** C++, Python, Git, Debugging,
- **Spoken Language:** English, Hindi, Marathi

## Projects

### [\[Link\]](#) Simple Portfolio: My Portfolio

- **Tech Stack:** Nextjs, Typescript, Tailwind, MongoDB.
- Focused on creating a visually appealing and interactive portfolio with attention to styling and professional look.
- Incorporated text-type animation. Added a smooth scroll-to-section feature that navigates to specific sections in page.
- Included features for downloading the resume and sending a message through the contact form, with messages stored in MongoDB.
- Developed a fully responsive design using Next.js, TypeScript, and Tailwind CSS for easy styling.
- **Features:** Downloadable resume, animated text, contact form, smooth scrolling navigation, and project showcase.

### [\[Git\]](#) Blog Application: Full-stack application

- **Tech Stack:** React, Tailwind, Session, Redux-toolkit, Node.js, Express, MongoDB.
- Developed a fully responsive and interactive blog platform allowing users to create, read, update, and delete posts. Integrated Redux Toolkit for state management and Tailwind CSS for styling.
- Implemented secure authentication and session management using Sessions to ensure user data safety.
- Used MongoDB to manage blog posts and user data, allowing for efficient CRUD operations.
- **Features:** User authentication with sessions, dynamic post creation, responsive design, and blog management.

### [\[Git\]](#) ShiZZle: Full-stack application

- **Tech Stack:** React, Tailwind CSS, JWT Authentication, Context-Reducer, Node.js, Express, MongoDB.
- This website offers a smooth, user-friendly experience where customers can easily browse a variety of delicious food options. users can quickly navigate the menu, select items, and customize orders.
- The secure login feature Secure login ensures the safety of personal information with JWT for user authentication.
- Managed product catalog and storage using MongoDB for database storage and management.
- **Features:** Multiple orders, secure login, order customization, responsive design.
